Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 5, 6, 9-11, 13, 19-25, 28, 29, 31 and 33 are rejected under 35 U.S.C. 102(b) as being anticipated by Newman (6088832).

Newman (6088832) teaches the invention as claimed including an article of swimwear comprising, in combination: a swimsuit body (10) having at least one aperture (24-27) configured to encircle a portion of a swimmer's body when the swimsuit body is worn by a user; a resilient seal (31) secured about the at least one aperture. Note that the strip is attached by adhesion or stitching. Note that the seal encircles waist and legs.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4, 7, 8, 12, 14-18, 26, 27, 30, 32, 34 and 35 are rejected under 35 U.S.C. 103(a) as being unpatentable over Newman (6088832).

Newman teaches the invention as claimed as set forth above in the rejection to claim 1. Newman (6088832) does not teach welding for securing the seal to the swimsuit. The examiner

Art Unit: 3765

takes official notice that it is well known to secure garment elements via welding. Therefore it would have been at the time the invention was made to substitute welding for stitching or adhesive for securing the seal to the garment since any of these would provide an equivalent securing function.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to /Danny Worrell/ whose telephone number is 571/272-4997. The examiner can normally be reached on MONDAY-THURSDAY.
